**LA Works  
Because  
We Do!**

July 6, 2009

Dear Brothers and Sisters,

City workers have always led during times of crisis. We've done it yet again, with the tentative agreement now before you.

Members of our Coalition can be very proud of the way we've risen to meet the extraordinary challenge this budget crisis presented, by working together with the City to find the best possible solution. The plan we have won will prevent layoffs and furloughs and extend our contracts by two years to lock them in while the economy has a chance to recover.

The agreement provides strong, real-world protections, ensuring that Coalition union members will not be disadvantaged for stepping up and doing the right thing. If new money comes to the City, we will gain our share of it in wages and/or benefits. And if other unions bargain increases that exceed ours, we will return to the table to address those gaps.

While the agreement takes no steps backward, it does call for sacrifice that we would not consider in normal economic times. But it will allow each of us in the worksite to look our brothers and sisters in the eye and know that they won't have to struggle against a 10% pay cut or find themselves on the unemployment lines while trying to support their families.

This agreement enables each of us to continue to serve Angelenos knowing that we've done our part to keep the City strong for the long-term, for our futures, our co-workers' futures, and for the future of the City as a whole.

We have arrived at a "big city" solution that will help Los Angeles rebound from the economic downturn by allowing people to choose a decent retirement rather than laying off workers and increasing unemployment. It will keep Los Angeles working as we preserve the essential services we provide.

You won this agreement. Over eighteen months ago Coalition members packed City Hall and pushed for early retirements and workers' ideas over layoffs. We met with City leadership and began to fashion remedies. In recent months, as the budget crisis escalated to a record \$530 million deficit, the City threatened up to 7,000 layoffs and moved to implement unilateral mandatory furloughs amounting to a ten percent pay cut in services and wages.

So we took to the streets for a Better Way for LA. We rallied, packed the Council chambers, hounded the Mayor wherever he went – including his home – and marched on City Hall. We raised our voices loud and clear calling for a Better Way and city officials heard us. That's why we have the chance now to approve this plan.

We, the members of your bargaining teams in the Coalition, unanimously recommend this agreement—the product of everyone's hard work—for your support and ratification. We have much to be proud of looking back, and because of our strong advocacy as a Coalition, looking forward.
